

ArtNeuro©Micrographs

Photomicrographs of many of the beautifully stained Golgi-impregnated neurons from cortex, hippocampus, and cerebellum seen here are available as posters (unmounted but ready for framing), as 2x2 kodachrome slides, or as digital files for PowerPoint lectures or seminars. [Contact us](#) regarding prices.

The posters show the detailed beauty of the neurons and can be used to compliment your office or lab. They are wonderful teaching aids in departmental or institutional corridors and would also make a welcomed gift to a colleague.

Many of these photomicrographs are scattered throughout our website. [Contact us](#) with the description of the figure that you want along with any other relevant information. Please note that the images in this website have been copyrighted and are digitally watermarked. Reproduction or use in journal articles, books, or at any other websites without the express consent of Dr. Ron Mervis is strictly prohibited.

If you are interested in photomicrographs of this type please check back to our website from time-to-time as new photomicrographs will be added periodically. Photomicrographs of neurons from a specific population may also be available from our slide collection of Golgi-stained tissue.
